Installation Guide DCP Limit Tool

Florian Dorgerloh 06.11.2024 Leipzig

Ref. 0001A

1. Download the tool from ECC's website at <u>www.ecc.de > Access > DCP Members ></u> <u>DCP Risk Management</u> and save it to a local directory.

Please note that the tool is optimised for Windows systems.

- 2. Enable the macros in the Excel tool. This can be done in two ways.
 - Method 1:

) ecc

Right-click the file, select "Properties," and under the "Security" tab, allow the macros.
