Installation Guide DCP Limit Tool

Florian Dorgerloh 20.12.2024 Leipzig

Ref. 0001A

1. Download the tool from ECC's website at <u>www.ecc.de > Access > DCP Members ></u> <u>DCP Risk Management</u> and save it to a local directory.

Please note that the tool is optimised for Windows systems and requires German language settings in Excel. You can easily change the language settings through the Control Panel. Support for other language settings will be available soon.

2. Enable the macros in the Excel tool. This can be done in two ways.

• Method 1:

Right-click the file, select "Properties," and under the "Security" tab, allow the macros.

• Method 2:

Open the Excel file, go to *Data > Options > Trust Center > Trust Center Settings > Macro Settings*, and enable VBA macros.
